GLIDE EDGE

We are introducing wakeboarding and wakeskating obstacles from a Czech manufacturer for all types of wakeparks.

Our products combine meticulous craftsmanship with the latest certified materials, ensuring long-lasting durability and joy of riding.

filling with PUR foam

welded edges with UV protection

The obstacles are made of high-density polyethylene (PE-HD) supplied by a local manufacturer.

This material offers high UV protection. All parts are cut from PE-HD sheets, making the obstacles fully plastic with bent edges.

The obstacles are assembled using welding, with UV-resistant welds ensuring long-term durability. We also offer the option of filling them with rigid PUR foam, which increases overall strength.

You can choose obstacles from our current catalog or arrange a custom design tailored to your ideas and needs.

SERVICES

INCLUDED IN PRICE

final completation in wakepark (in Czechia)

CHARGED SEPARATELY ON DEMAND

transport

pre-season service

stickering the side walls of obstacles with your own wakepark logo If you'd like to refresh your setup more frequently, try our RENT IT service, which offers rental of catalog obstacles with the option of later purchase.
